Introduction

Dear friends,

It is with great pleasure and pride that I present to you our annual activity report for 2022. This report is a testament to our work, our commitment and our love for the people we have helped and supported in their difficulties and challenges.

In the past year, we have had numerous activities aimed at improving living conditions, health, education and social integration of our beneficiaries. Our beneficiaries were single mothers, elderly and sick, Roma children from unsanitary families, children with special needs and homeless families. They were our inspiration, our motivation and our joy.

Thanks to our donors, associates and volunteers, we have managed to provide food, hygiene, firewood, packages, house renovations and other forms of assistance and support for a large number of people. In this way, we showed them that they are not alone, that there is hope and that there is goodness in the world.

Our work has been recognized and appreciated by our community, media and other organizations. We have received many accolades and thank-you notes that give us an incentive to continue with our mission.

In this report, we present our activities that we carried out in 2022, as well as their results and impact on our users. We also show our financial data showing our income and expenses during this period.

On my own behalf and on behalf of the entire team of the humanitarian association Path Truth and Life, as well as on behalf of all our users, I would like to thank you for supporting our work and for changing the world together.

Cordial representative of the humanitarian association Put Truth Life

Mile Jovanović

Activities

In 2022, we implemented the following activities:

Humanitarian aid for the Roma people in difficult life circumstances

- Four times we provided food and hygiene for each season for 86 Families of Roma nationality in the Roma unsanitary settlement of Bangladesh. This activity aimed to improve the nutrition and hygiene of our users, as well as to give them a sense of care and solidarity.

Caring for the elderly and sick

Our care for the elderly and sick is throughout the year because they have no one but us, the biggest challenge is the winter period.

- During the winter period, we provided 40 m2 of firewood for the elderly and sick, as well as five times we visited them and delivered packages of food and hygiene when they were at their hardest. This activity aimed to provide them with warmth and security on cold days, as well as to show them our attention and support.

Here are some special encounters that we highlight for you:

****The Gift of Hope****

Grandma Vera had lost everything. Her husband, her children, her health. She lived alone in a small house in the countryside, with no one to care for her or visit her. She had no money, no food, no firewood. She had only pain and despair. She spent her days lying on a thin mattress, shivering from the cold and hunger. She prayed to God to end her misery, to take her away from this world. She felt like she had nothing to live for. One day, she heard a knock on the door. She ignored it, thinking it was some beggar or thief. But the knocking persisted, louder and louder. She dragged herself to the door and opened it. She saw a group of young people standing outside, smiling and holding bags and boxes. They wore jackets with the logo of a humanitarian organization called Put Istina Život. "Hello, grandma Vera. We are here to help you. We brought you some firewood, some food and some hygiene products. We also have some clothes and blankets for you. Can we come in?" one of them said. Grandma Vera was speechless. She couldn't believe her eyes or ears. Who were these people? How did they know her name? Why did they want to help her? She nodded weakly and let them in. They quickly unloaded their bags and boxes and started to make a fire in the fireplace, to cook some soup on the stove, to clean the house and make the bed. They talked to her kindly, asking her about her life, her health, her needs. Grandma Vera felt a warmth in her heart that she hadn't felt in years. She felt tears streaming down her face. She thanked them profusely for their generosity and compassion. They told her that they were part of a humanitarian organization that helped old and sick people who had no one. They said that they had heard about her situation from a neighbor who had contacted them through their website. They said that they wanted to make her life better and give her hope. They stayed with her for a few hours, until they finished their tasks and made sure

she was comfortable and happy. They gave her a hug and a kiss and told her that they would come back soon to check on her and bring her more supplies. They also gave her a phone number where she could call them anytime if she needed anything or just wanted to talk. They said goodbye and left. Grandma Vera watched them go with gratitude and wonder. She felt a new spark in her soul, a new reason to live. She felt like she had received a gift from heaven, a gift of hope.

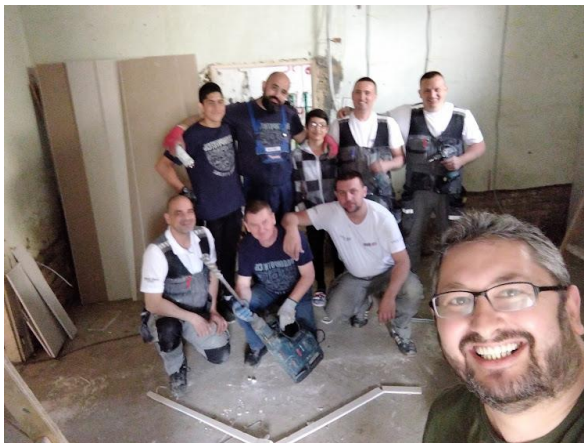

Christmas packages for Roma children and children with special needs.

- We made 167 packages for children of Roma nationality and socially vulnerable children, as well as for children with special needs. This activity aimed to make children happy on the occasion of the New Year holidays, as well as to stimulate their interest in learning and playing.

Adaptation of houses and for socially vulnerable families

- We renovated the house of the Disic family to a single mother who experienced the tragedy of prematurely losing her husband who died of cancer leaving her with her 11-year-old little daughter Kristina 11 years old without a roof over her head in great poverty without electricity and water. This activity aimed to provide them

with adequate housing and living conditions, as well as to help them overcome the trauma they experienced.

New room and new bathroom for Snow White

- The construction of the snow white bath, which due to severe diabetes and unsanitary conditions, lost both kidneys. Through the renovation of her house and the construction of the bathroom, we managed to put a smile back on her face and the feeling that she was not alone.

Finance

Our activities are funded through various donations from supporters and followers of our work. In 2022, we generated a total revenue of RSD 1,994,000.

Our total expenditures for 2022 amounted to RSD 1,851,000. Most of the expenditure went to the purchase of food, hygiene, firewood and packages for our users.

Also, we had expenses for the renovation of the Radol family home, as well as for administration, communication and transportation.

Here you can see our accounts on the official website of the Business Registers Agency of the Government of the Republic of Serbia.

Conclusion

In 2022, we have successfully implemented our planned activities and achieved our goals. We helped a large number of people who found themselves in difficult life situations and gave them hope and support. Our work has been recognized and appreciated by our donors, collaborators and the public. We are proud of our achievements and are grateful to everyone who helped us achieve them.

In the coming period, we will continue to work on improving our activities and expanding our influence. We plan to launch new projects that will focus on education, employment and social integration of our beneficiaries. We will also strive to increase our visibility and cooperation with other organizations that pursue similar goals.

We believe that our work contributes to creating a better and more humane society for all. We invite all people of good will to join us in our mission and to build together a world full of love, solidarity and justice.
